

CONGRESS OF THE RUSSIAN SOCIETY OF RADIOLOGY

November 8-10th, 2018 Congress Centre of the Moscow Government building
Novy Arbat str. 36/9 («Krasnopresnenskaya», «Barrikadnaya» subway station)

8 November, Thursday								
Time/Hall	Main Conference hall	Small Conference hall	Sector «C»	Sector «T»	Sector «A»	Exhibition hall	Sector «B»	Hall «Olympus»
08.30-09.30	Congress participants registration							
09.30-11.00	Educational course «Emergency radiodiagnosis in acute intestinal obstruction»	Multimodal Session Symposia «New horizons in oncologic visualization»	Session «The new role of CT, MRI and hybrid technologies for the diagnosis of coronary artery disease and coronary atherosclerosis»	Session «Nuclear medicine. Radionuclide diagnostic»	Session «Comprehensive diagnosis of breast disease»	Master class «Women's health»	Session «Neurooncology. What's new?»	Session «Oncology. Lung tumors: clinical and instrumental diagnosis, staging and evaluation of the treatment effect»
11.00-11.30	Break							
11.30-12.30	Plenary Session №1. Opening ceremony Main Conference hall							
12.30-13.00	Break							
13.00-14.30	Session «Emergency radiodiagnosis with urgent diseases of the thoracic and abdominal organs»	Discussion club «Personal medicine in the digital age: are we ready?»	Joint session with American College of Radiology	Session «Nuclear medicine. Radionuclide therapy»	Session «MRI and interventional diagnostics in mammology»	Master class «Women's health»	Session «Brain ischemia: from vascular encephalopathy to stroke»	Session «Oncology. Lung tumors: clinical and instrumental diagnosis, staging and evaluation of the treatment effect»
14.30-14.45	Break							
14.45-16.15	Educational course «X-ray diagnosis of lung diseases»	Satellite Symposia on mammography	Session «Cardiomyopathy and myocarditis: what's new?»	Session «Thoracoabdominal radiotherapy»	Satellite Symposia	Master class «Men's health»	Session «Analysis of clinical cases, from simple to complex»	Session «Oncology. Screening the future of Oncology»
16.15-16.30	Break							
16.30-18.00	Educational course «Basics of emergency CT of thoracic cage»	Symposium of young scientists «Research in two-energy CT»	Session «Heart and blood vessels: rare, unusual, interesting»	Session «Radiotherapy of malignant tumors of the pelvis»	Session «Breast Cancer Screening»	Master class «Men's health»	Session «Non-tumor pathology of the white matter of the brain»	Session «Continuous medical education in radiology»

CONGRESS OF THE RUSSIAN SOCIETY OF RADIOLOGY

November 8-10th, 2018 Congress Centre of the Moscow Government building
Novy Arbat str. 36/9 («Krasnopresnenskaya», «Barrikadnaya» subway station)

9 November, Friday								
Time/Hall	Main Conference hall	Small Conference hall	Sector «C»	Sector «T»	Sector «A»	Exhibition hall	Sector «B»	Hall «Olympus»
08.00-09.00	Congress participants registration							
09.00-10.30	Team work in oncology «Head and neck, spine»	Educational course of heart tumors	Scientific Symposia «Volume computed tomography in clinic»	Session «X-ray. Endovascular treatment of bleeding»	Joint session with ESHI (European Society of Hybrid Imaging)	Master class «Cardiology»	Session «MRI from anatomy - to function»	Session «Theory and practice of contrast»
10.30-10.45	Break							
10.45-12.15	Team work in oncology «Belly and pelvis»	Satellite Symposia «MRI in abdominal imaging»	Educational course «Tomographic methods of x-ray diagnostics in the examination and treatment of patients with heart rhythm disorders»	Session «X-ray. Endovascular treatment of thrombosis and embolism»	Session «X-ray diagnostics and x- ray engineering»	Master class «Cardiology»	Session «MRI from anatomy - to function»	Session “Contrasting. Pro et contra”
12.15-12.45	Break							
12.45-13.45			Interactive session “Guess the diagnosis”	Plenary session №2 / E-poster Session				
13.45-14.00	Break							
14.00-15.30	Session «Radiology without borders»	Educational course «Chronic pancreatitis: a variety of forms of manifestations in tomographic studies and differential diagnosis»	Session «Education, training of medical personnel»	Educational course «Computer tomography in dentistry and maxillofacial surgery»	Session «X-ray diagnostics and x- ray engineering»	Master class «Pediatrics»	Satellite Symposia	Session «Positron Emission Tomography»
15.30-15.40	Break							
15.40-17.10	Educational course «Ultrasound diagnostics»	Session «Relevant issues of differential diagnosis of abdominal and retroperitoneal diseases»	Clinical radiology in the anatomical section	Session «Radiodiagnosis in pediatric dentistry and maxillofacial surgery»	Round table «Ministry of industry and trade»	Master class «Traumatology- orthopedics»	Satellite Symposia	Session «Positron emission tomography»
17.10-17.20	Break							
17.20-18.50	Educational course «Ultrasound diagnostics»	Session «Relevant issues of differential diagnosis of abdominal and retroperitoneal diseases»	Clinical radiology in anatomical section	Session «Radiodiagnosis in dentistry and maxillofacial surgery»	Round table «Radiopharmaceuticals in Russia»	Session «Degenerative lesion of the lumbar spine: a multidisciplinary approach»	Session «MRS and MRI»	Profile Commission «Ministry of health of the Russian Federation on radiation diagnosis»

CONGRESS OF THE RUSSIAN SOCIETY OF RADIOLOGY

November 8-10th, 2018 Congress Centre of the Moscow Government building
Novy Arbat str. 36/9 («Krasnopresnenskaya», «Barrikadnaya» subway station)

10 November, Saturday								
Time/Hall	Small Conference hall	Sector «C»	Sector «T»	Sector «A»	Exhibition hall	Sector «B»	Hall «Olympus»	Presidium Room
08.30-09.30	Регистрация участников Конгресса							
09.30-11.00	Educational course «Diagnosis of interstitial lung diseases»	Educational course «Mistakes I learn from»	Session «Radiation diagnosis of urological diseases»	Session «Radiation diagnosis in rheumatology»	Educational course for radiographers	Session «Information technology and management»	Session «Military field radiology»	Session «Radiation safety and control»
11.00-11.15	Break							
11.15-12.45	Educational course «Diagnosis of interstitial lung diseases»	Educational course «Magnetic resonance imaging in obstetrics»	Session «Pediatric radiology. Radiation diagnosis of pathology of the musculoskeletal system»	Session «X-ray diagnostics in rheumatology»	Session for radiographers	Session «Information technology and management»	Session «Military field radiology»	Session «Radiation safety and control»
12.45-13.15	Break							
13.15-14.45	Educational course «Diagnosis of interstitial lung diseases»	Educational course «Multi-disciplinary approach in the diagnosis of cervical cancer»	Session «Pediatric radiology. Thoracic Radiology in Children»	Session «Osteodensitometry and bone health assessment»	Session «Radiation diagnosis of inflammatory diseases of the kidneys»	Educational course «Modern possibilities of radiation diagnostics of temporal bone pathology»	Lecture session «Radiation diagnosis of cancer of the esophagus and stomach»	Scientific Session
14.45-15.00	Break							
15.00-16.30	School of MRI	Educational course of endometriosis	Session «Pediatric radiology. Abdominal radiology»	Session «Bone-muscular pathology»	Session «Radiation diagnosis in urolithiasis»	Educational course «New technologies of radiation diagnosis of diseases of the paranasal sinuses and larynx»	Educational course «Radiation diagnosis of small and large intestine tumors»	Competition of young radiologists
16.30-16.45	Break							
16.45-18.15	Final competition of Student's Olympiad in Radiation Diagnostics	Round table «Diagnosis of ovarian formations»	Session «Pediatric radiology. Neuroradiology»	Session «Radiation diagnosis of kidney formations»	Session «Radiation diagnosis of kidney formation»	Education course «New horizons of radiation diagnostics in otorhinolaryngology»	Scientific symposium «Radiation diagnosis of diseases of the gastrointestinal tract»	Competition of young radiologists
